IT6-26　Circular Economy

2026.9.8 ~ 2026.9.18

Course Coordinator : Takao Nishimura

<Contents>

This course is designed for young leaders and mid-career professionals—such as those working in refineries or environmental departments—who are involved in resource circulation and waste reduction.Participants learned about the Japanese government's resource circulation strategy, as well as Japan's advanced recycling technologies and eco-friendly initiatives. Furthermore, through workshops, participants engaged in group discussions on how to develop a resource-circulating business model in their own countries; this helped deepen their understanding of Japan's approach to recycling and provided insights for formulating future strategies.

<Countries of Participants>

Azerbaijan, Iraq, Kazakhstan, Libya, Oman, Pakistan, Peru, Saudi Arabia, Thailand, United Arab Emirates, Uzbekistan, Vietnam

<Number of Participants> 15 participants
