

TR-18-17 Refinery and Technology Management for Technology Executive:

JCCP would like to announce that our newly-developed HRD course has just started today. In this program, JCCP apply our originally developed case material focused on the technology management.

Background: Based on the keen requests of the oil producing countries to enhance HRD program for technology management leaders, JCCP has been engaged on the program development subsequently to “Strategic Management Course”.

Theme: Refinery and Technology Management (Technology management, Environment & Energy Conservation, Safety & Maintenance, Refinery/Chemical integration).

Participants: Nine; Saudi Arabia, UAE, Vietnam, Thai, Kazakhstan, Mexico, Peru, Colombia
