Joint Project「Enhancement of Environmental Sustainability on Oil Products Distributions in Vietnam」【Report】

Vietnam National Petroleum Group (Petrolimex) and JCCP held a technical conference focused on GHG emissions reduction in Vietnam on September 15, 2026, with the participation of ENEOS and ENEOS Research. Mr. Nguyen Ngoc Tu, Vice President of Petrolimex Group; and Mr. Masuda, Senior Executive Director of JCCP delivered speeches. Mr. Trinh Quang Vinh, Chairman of Petrolimex Quang Ninh (the host venue) and approximately 200 Petrolimex employees from across the country gathered at the venue, and the conference was also broadcast online to branch offices nationwide. Active Q&A sessions took place, focusing on policy support activities by Japanese primary oil distributors.

This initiative aligns with efforts toward achieving carbon neutrality - one of the key goals of AZEC (Asia Zero Emission Community) - and is expected to contribute to strengthening friendly relations between Japan and Vietnam.

Mr. Nguyen Ngoc Tu,
Vide President

Mr. Masuda,
Senior Executive Director
