

JCCP Customized Course Program Completed

Course No. CPO- 2 -19

July 23 – July 24, 2019

Course title: Quality Management of Petroleum Products for Philippines DOE

Course Coordinator : Mr. Takaaki Yuasa

<Background>

At the request of the Philippines Department of Energy (DOE), Japanese experts were dispatched to hold a 2-day seminar on “Quality Management of Petroleum Products”.

<Content>

- 1) Petroleum Industry in Japan & Hints to improve your situation
- 2) Systems and Actual Conditions of Monitoring in Japanese Petroleum Products Market
(including Act on the Quality Control)
- 3) About our Company's Quality and Logistics Management

<Overview>

DOE is doing their best efforts to shut out low-quality gasoline and diesel gas oil from the Philippines market. This seminar is to provide the Japanese past experience about it. Participants including several petroleum QC inspectors enthusiastically took part in the seminar and asked many questions about each item of the agenda. They also gave us a lot of positive feedback.

<Venue>

Philippines DOE Audio Visual Room, Manila

<Countries> **Philippines** / 50 participants
