

Looking to the Future of the Oil and Gas Industry

D & I Management, Our Career Plan

13th

Friendship Committee for Women Career Development

Announcement
of a forum

As the world and industry reach a major turning point for the realization of a carbon neutral society, the oil industry is restructuring its business. At this forum, we will discuss the promotion of women's advancement in the workplace and career plans in such business environment through speeches and panel discussions with leaders and experts in Japan and from the Middle East Gulf oil producing countries.

JCCP established the FCW Committee in 2015 in cooperation with the UAE's national oil company to support women's career development in oil companies in the UAE and Japan. Inviting participants from other oil-producing countries, their discussed recommendations on the problems that women face have been presented at the FCW Forum and this is the 13th forum.
